Child Protection Ethos

We in Ballymoney Nursery School have a responsibility for the safeguarding and child protection of the children in our care and we will carry out this duty by providing a caring, supportive and safe environment, where each child is valued for his or her unique talents and abilities, and in which all our young people can learn and develop to their full potential. All staff, teaching and non-teaching should be alert to the signs of possible abuse and should know the procedures to be followed. This Policy sets out guidance on the action, which is required where abuse or harm to a child is suspected and outlines referral procedures within our school.

Key Principles of Safeguarding and Child Protection

The general principles, which underpin our work, are those set out in the UN Convention on the Rights of the Child and are enshrined in the Children (Northern Ireland) Order 1995, "Co Operating to Safeguard Children and Young People in Northern Ireland" (DOH, 2017), the Department of Education (Northern Ireland) guidance "Safeguarding and Child Protection in Schools" (DENI Circular 2017/04) and the Safeguarding Board for NI Core Child Protection Policy and Procedures (2017).

Children and Young People's Strategy 2020-30

The Children and Young People's Strategy 2020-30 is a requirement of the Children's Services Co-operation Act (NI) 2015. It is the overarching strategic framework for government to improve health and wellbeing of all children in Northern Ireland.

The following Principles form the basis of our Child Protection Policy: • the child or young person's welfare is paramount; • the voice of the child or young person should be heard; • parents are supported to exercise parental responsibility and families helped stay together; • partnership; • prevention; • responses should be proportionate to the circumstances; • protection; and • evidence based and informed decision making.

Other Related Policies

The school has a duty to ensure that safeguarding permeates all activities and functions. The child protection policy therefore complements and supports a range of other school policies including:

- Anti-Bullying Policy
- Positive Behaviour Management Policy
- Code of Conduct

- Complaints policy
- Sun safety policy
- E-Safety Policy
- First Aid and Administration of Medicines
- Health and Safety Policy
- Intimate Care
- Special Educational Needs
- Whistleblowing policy

These policies are available to parents/carers. Anyone who would like a copy should contact the School office.

School Safeguarding Team

The following are members of the school's Safeguarding Team:

- **Chair of the Board of Governors**
- **Designated Governor for Child Protection**
- **Acting Principal / Designated Teacher (Mrs Shona Müller)**
- **Deputy Designated Teacher (Mrs Claire O'Kane)**

Roles and Responsibilities

Designated Teacher/ Deputy Designated Teacher

Every school is required to appoint a Designated Teacher with responsibility for Child Protection. Within our school this is the Principal. They must also appoint a Deputy Designated Teacher who, as a member of the Safeguarding team, will actively support the Designated Teacher in carrying out the following duties:

- the induction and training of all school staff including support staff;
- being available to discuss safeguarding or child protection concerns of any member of staff;
- responsibility for record keeping of all child protection concerns;
- maintaining a current awareness of early intervention supports and other local services e.g. Family Support Hubs;
- making referrals to Social Services or PSNI where appropriate;

- liaison with the EA Designated Officers for Child Protection;
- keeping the school Principal informed;
- lead responsibility for the development of the school's child protection policy;
- promotion of a safeguarding and child protection ethos in the school; and
- compiling written reports to the Board of Governors regarding child protection.

Principal (in addition to Designated Teacher duties)

- as secretary to the Board of Governors, assist in fulfilling its safeguarding and child protection duties;
- ensure the Board of Governors are kept fully informed of all developments relating to safeguarding including changes to legislation, policy, procedures, DE circulars, inclusion of child protection on each meeting agenda;
- to manage allegations / complaints against school staff;
- to establish and manage the operational systems for safeguarding and child protection;
- to appoint and manage designated teacher/deputy designated teachers who are enabled to fulfil their safeguarding responsibilities;
- Act as the 'Key Adult' to receive confidential information from the police and follow Operation Encompass procedures to support pupils who have been impacted by domestic abuse.
- Maintain records and recording keeping in line with the appropriate Orders, Acts and Guidance as well as GDPR.
- to ensure safe and effective recruitment and selection including awareness of safeguarding and child protection for new staff and volunteers;
- ensure volunteers e.g. coaches, music tutors, school photographers etc. and any other who are employed by others, have the necessary clearances in place and a record of these should be maintained by the Principal
- ensure that parents and pupils receive a copy or summary of the child protection policy at intake and at a minimum every 2 years; and

- to maintain school records of child abuse complaints.

Board of Governors

The Education and Libraries (Northern Ireland) Order 2003 places a statutory duty on BoG to:

- Safeguard and promote the welfare of registered pupils.
- a designated governor for child protection is appointed;
- a designated and deputy designated teacher are appointed in their schools;
- they have a full understanding of the roles of the designated and deputy designated teachers for child protection;
- safeguarding and child protection training is given to all staff and governors including refresher training;
- governors are aware of Operation Encompass and have attended any relevant training.
- the school has a child protection policy which is reviewed annually and parents and pupils receive a copy of the child protection policy and complaints procedure .
- the school has an anti-bullying policy which is reviewed at intervals of no more than four years and maintains a record of all incidents of bullying or alleged bullying. See the Addressing Bullying in Schools Act (NI) 2016;
- there is a code of conduct for all adults working in the school;
- all school staff and volunteers are recruited and vetted, in line with DE Circular 2012/19;
- they receive a full annual report on all child protection matters (It is best practice that they receive a termly report of child protection activities). This report should include details of the preventative curriculum and any initiatives or awareness raising undertaken within the school, including training for staff; and

- the school maintains the following child protection records in line with DE Circulars 2015/13 Dealing with Allegations of Abuse Against a Member of Staff and 2020/07 Child Protection: Record Keeping in Schools.

Chair of Board of Governors

The chair of the board of governors:

- has a pivotal role in creating and maintaining a safeguarding ethos;
- receives training from CPSS and HR;
- assumes lead responsibility in the event of a CP complaint or concern about the principal;
- ensures compliance with legislation, Child Protection record keeping and policies.
- is responsible for ensuring child protection records are kept and for signing and dating annually the Record of Child Abuse Complaints against staff members even if there have been no entries.

Designated Governor for Child Protection

Advises the board of governors on: -

- the role of the designated teachers;
- the content of child protection policies;
- the content of a code of conduct for adults within the school;
- the content of the termly updates and full annual designated teachers report; and
- recruitment, selection, vetting and induction of staff.

Other members of school staff

- members of staff must refer concerns or disclosures initially to the designated teacher for child protection or to the deputy designated teacher if they are not available; A detailed written record of the concerns will be made and any further necessary action will be taken.
- Staff members should complete the note of concern if there are safeguarding concerns such as: poor attendance and punctuality, poor presentation, changed or unusual behaviour including self-harm and

suicidal thoughts, deterioration in educational progress, discussions with parents about concerns relating to their child, concerns about pupil abuse or serious bullying and concerns about home circumstances including disclosures of domestic abuse;

- staff should not give children a guarantee of total confidentiality regarding their disclosures, should not investigate nor should they ask leading questions.

Parents

The primary responsibility for safeguarding and protection of children rests with parents who should feel confident about raising any concerns they have in relation to their child. Parents are informed that the school is part of operation encompass, this is detailed in the induction information and on the school website.

Parents can play their part in safeguarding by informing the school:

- if the child has a medical condition or educational need;
- if there are any Court Orders relating to the safety or wellbeing of a parent or child;
- if there is any change in a child's circumstances for example - change of address, change of contact details, change of name, change of parental responsibility;
- if there are any changes to arrangements about who brings their child to and from school;
- if their child is absent and should send in a note on the child's return to school. This assures the school that the parent/carers knows about the absence.

More information on parental responsibility can be found on the EA website at: www.eani.org.uk/schools/safeguarding-and-child-protection

It is essential that the school has up to date contact details for the parent/carers.

Child Protection Definitions

Definition of Harm

Harm can be suffered by a child or young person by acts of abuse perpetrated upon them by others. Abuse can happen in any family, but children may be more at risk if their parents have problems with drugs, alcohol and mental health, or if they live in a home where domestic abuse happens. Abuse can also occur outside of the family

environment. Evidence shows that babies and children with disabilities can be more vulnerable to suffering abuse. Although the harm from the abuse might take a long time to be recognisable in the child or young person, professionals may be in a position to observe its indicators earlier, for example, in the way that a parent interacts with their child. Effective and ongoing information sharing is key between professionals.

Harm from abuse is not always straightforward to identify and a child or young person may experience more than one type of harm. Harm can be caused by: Sexual abuse
Emotional abuse Physical abuse Neglect Exploitation

Sexual Abuse occurs when others use and exploit children sexually for their own gratification or gain or the gratification of others. Sexual abuse may involve physical contact, including assault by penetration (for example, rape, or oral sex) or nonpenetrative acts such as masturbation, kissing, rubbing and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse (including via e-technology). Sexual abuse is not solely perpetrated by adult males. Women can commit acts of sexual abuse, as can other children.

Emotional Abuse is the persistent emotional maltreatment of a child. It is also sometimes called psychological abuse and it can have severe and persistent adverse effects on a child's emotional development.

Emotional abuse may involve deliberately telling a child that they are worthless, or unloved and inadequate. It may include not giving a child opportunities to express their views, deliberately silencing them, or 'making fun' of what they say or how they communicate. Emotional abuse may involve bullying - including online bullying through social networks, online games or mobile phones.

Physical Abuse is deliberately physically hurting a child. It might take a variety of different forms, including hitting, biting, pinching, shaking, throwing, poisoning, burning or scalding, drowning or suffocating a child.

Neglect is the failure to provide for a child's basic needs, whether it be adequate food, clothing, hygiene, supervision or shelter that is likely to result in the serious impairment of a child's health or development. Children who are neglected often also suffer from other types of abuse.

Exploitation is the intentional ill-treatment, manipulation or abuse of power and control over a child or young person; to take selfish or unfair advantage of a child or young person or situation, for personal gain. It may manifest itself in many forms such as

child labour, slavery, servitude, and engagement in criminal activity, begging, benefit or other financial fraud or child trafficking. It extends to the recruitment, transportation, transfer, harbouring or receipt of children for the purpose of exploitation. Exploitation can be sexual in nature. Although 'exploitation' is not included in the categories of registration for the Child Protection Register, professionals should recognise that the abuse resulting from or caused by the exploitation of children and young people can be categorised within the existing CPR categories as children who have been exploited will have suffered from physical abuse, neglect, emotional abuse, sexual abuse or a combination of these forms of abuse

Specific types of Abuse

In addition to the types of abuse described above there are also some specific types of abuse that we in Ballymoney Nursery School are aware of and have therefore included them in our policy. Please see these in **Appendix 1**.

Children with Increased Vulnerabilities

Some children have increased risk of abuse due to specific vulnerabilities such as disability, lack of fluency in English and sexual orientation. We have included information about children with increased vulnerabilities in our policy. Please see these in **Appendix 2**

Responding to Safeguarding and Child Protection Concerns

Safeguarding is more than child protection. Safeguarding begins with promotion and preventative activity which enables children and young people to grow up safely and securely in circumstances where their development and wellbeing is not adversely affected. It includes support to families and early intervention to meet the needs of children and continues through to child protection. The school is part of Operation Encompass (**Appendix 3**). Child protection refers specifically to the activity that is undertaken to protect individual children or young people who are suffering, or are likely to suffer significant harm.

How a Parent can Raise a Concern about safeguarding or child protection

In Ballymoney Nursery School we aim to work closely with parents/guardians in supporting all aspects of their child's development and well-being. Any concerns a parent may have regarding safeguarding or child protection will be taken seriously and dealt with in a professional manner.

A parent or other carer may also give information to a member of school staff which gives rise to concern about possible child abuse by someone outside the school, or by a person working in the school in a volunteer capacity.

The person making the complaint will be advised of their responsibility to refer to the local Health and Social Care Trust Gateway Team

Further details of who to contact are shown in the flowchart in **Appendix 4**.

Where School has concerns or has been given information about possible abuse by someone other than a member of staff

In Ballymoney Nursery School if a child makes a disclosure to a teacher or other member of staff which gives rise to concerns about possible abuse, or if a member of staff has concerns about a child, the member of staff will report to the designated teacher, complete a Note of Concern (see **Appendix 7**) and act promptly. They will not investigate - this is a matter for Social Services - but will discuss these concerns with the designated teacher or with the deputy designated teacher if he/she is not available.

The designated teacher will consult with the principal or other relevant staff always taking care to avoid due delay. If principal is not available the Deputy Designate Teacher may seek advice from an Education Authority Child Protection Officer. The designated teacher may also seek clarification from the child or young person, their parent/carer.

If a child protection referral is not required the school may consider other options including monitoring, signposting or referring to other support agencies e.g. Family Support Hub with parental consent and, where appropriate, with the child/young person's consent.

If a child protection referral is required the designated teacher will seek consent from the parent/carer and/or the child {if they are competent to give this} unless this would place the child at risk of significant harm.

The designated teacher will phone the Gateway team and/or the PSNI and will submit a completed UNOCINI referral form. Where appropriate the source of the concern will be informed of the action taken.

For further detail please see **Appendix 5**.

Where a complaint has been made about possible abuse by a member of the school's staff or a Volunteer

When a complaint about possible child abuse is made against a member of staff the Principal (or the deputy designated teacher if the principal is not available) must be

informed immediately. If the complaint is against the principal then the deputy designated teacher should be informed and she will inform the Chairperson of the board of governors who will consider what action is required in consultation with the employing authority. The procedure as outlined in **Appendix 6** will be followed. Consent Concerns about the safety or welfare of a child/young person, should, where practicable, be discussed with the parent and consent sought for a referral to children's social services in the local HSC Trust, unless seeking agreement is likely to place the child/young person at further risk through delay or undermine any criminal investigative process (for example in circumstances where there are concerns or suspicions that a crime has taken place); or there is concern raised about the parent's actions or reactions. The communication/language needs of the parents/carers should be established for example in relation to disability/ethnicity and the parent's/carers' capacity to understand should be ascertained. These should be addressed through the provision of appropriate communication methods, including, where necessary, translators, signers, intermediaries or advocacy services.

Effective protection for children/young people may, on occasions, require the sharing of information without prior parental/carers consent in advance of that information being shared.

Where staff decide not to seek parental consent before making a referral to children's social services in the local Health and Social Care Trust or the police, the reason for this decision must be clearly noted in the child/young person's records and included within the verbal and written/UNOCINI referral.

When a referral is deemed to be necessary in the interests of the child/young person, and the parents/carers have been consulted and do not consent, the following action should be taken:

- the reason for proceeding without parental consent must be recorded;
- the withholding of permission by the parent/carers must be included in the verbal and written referral to children's social services;
- the parent/carers should be contacted to inform them that, after considering their wishes, a referral has been made.

Staff making a referral may ask for their anonymity to be protected as far as possible because of a genuine threat to self/family. In such instances this anonymity should be protected with an explanation to the staff member that absolute confidentiality cannot be guaranteed as information may become the subject of court processes.

Confidentiality and Information Sharing

Information given to members of staff about possible child abuse cannot be held "in confidence". In the interests of the child, staff have a responsibility to share relevant information about the protection of children with other professionals particularly the investigative agencies. In keeping with the principle of confidentiality, the sharing of information with school staff will be on a 'need to know' basis. Where there have been, or are current, child protection concerns about a pupil who transfers to another school we will consider what information should be shared with the Designated Teacher in the receiving school. Where it is necessary to safeguard children information will be shared with other statutory agencies in accordance with the requirements of this policy, the school data protection policy and the General Data Protection Regulations (GDPR).

Record Keeping

In accordance with DE guidance we have a Records Management Policy. While there is no specific legislation in respect of child protection records, schools should ensure that the principles of the requirements of the legislation, in particular the Children (Northern Ireland) Order 1995 and the Data Protection Act 2018, and guidance in DE Circular 2020/07 is adhered to.

We have a responsibility to maintain records and record keeping systems. The Board of Governors (BoG) ensure that the arrangements operated by the school for the retention, management and release of public records comply with statutory requirements, including data protection legislation, most recently the new Data Protection Act 2018 (DPA) including the General Data Protection Regulation (GDPR). GDPR provides a legal framework for keeping everyone's personal data safe by requiring organisations to have robust processes in place for handling and storing personal information based on the following principles:

- Processed lawfully, fairly and in a transparent manner;
- Collected for specified, explicit and legitimate purposes;
- Adequate, relevant and limited to what is necessary;
- Accurate and where necessary kept up to date;
- Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which those data are processed; and
- Processed in a manner that ensures appropriate security of personal data.

In accordance with DE guidance on the disposal of child protection records these records will be stored from child's date of birth plus 30 years. If information is held

electronically, whether on a laptop or on a portable memory device, all must be encrypted and appropriately password protected.

These notes or records should be factual, objective and include what was seen, said, heard or reported. They should include details of the place and time and who was present and should be given to the Designated/Deputy Designated Teacher. The person who reports the incident must treat the matter in confidence.

Safe Recruitment Procedures

Vetting checks are a key preventative measure in preventing unsuitable individuals' access to children and vulnerable adults through the education system and schools must ensure that all persons on school property are vetted, inducted and supervised as appropriate. All staff paid or unpaid who are appointed to positions in Ballymoney Nursery School are vetted / supervised in accordance with relevant legislation and Departmental guidance.

Code of Conduct For all Staff - Paid or Unpaid

All actions concerning children and young people must uphold the best interests of the young person as a primary consideration. Staff must always be mindful of the fact that they hold a position of trust and that their behaviour towards the child and young people in their charge must be above reproach. All members of staff are expected to comply with the school's Code of Conduct for Employees and Volunteers which has been approved by the Board of Governors (See Appendix 6 or the school's Code of Conduct is available on request)

The Preventative Curriculum

Our school seeks to promote pupils' awareness and understanding of safeguarding issues, including those related to child protection through its curriculum. The safeguarding of children is an important focus in the school's personal development programme and is also addressed where it arises within the context of subjects. Through the preventative curriculum we aim to build the confidence, self-esteem and personal resiliencies of children so that they can develop coping strategies and can make more positive choices in a range of situations.

Monitoring and Evaluation

This policy will be reviewed annually by the safeguarding team and approved every year by the Board of Governors for dissemination to parents, pupils and staff.

It will be implemented through the schools staff induction and training programme and as part of day to day practice.

Compliance with the policy will be monitored on an on-going basis by the designated teacher for child protection and periodically by the Schools Safeguarding Team.

The board of governors will also monitor child protection activity and the implementation of the Safeguarding and Child Protection policy on a regular basis through the provision of reports from the designated teacher.

Specific Types of Abuse

Grooming of a child or young person is always abusive and/or exploitative. It often involves perpetrator(s) gaining the trust of the child or young person or, in some cases, the trust of the family, friends or community, and/or making an emotional connection with the victim in order to facilitate abuse before the abuse begins. This may involve providing money, gifts, drugs and/or alcohol or more basic needs such as food, accommodation or clothing to develop the child's/young person's loyalty to and dependence upon the person(s) doing the grooming. The person(s) carrying out the abuse may differ from those involved in grooming which led to it, although this is not always the case. Grooming is often associated with Child Sexual Exploitation (CSE) but can be a precursor to other forms of abuse. Grooming may occur face to face, online and/or through social media, the latter making it more difficult to detect and identify. If the staff in SCHOOL NAME become aware of signs that may indicate grooming they will take early action and follow the school's child protection policies and procedures.

Child sexual exploitation (CSE) is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/ or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology. (Co-operating to Safeguard Children and Young People in NI. DHSSPS version 2.0 2017) The key factor that distinguishes cases of CSE from other forms of child sexual abuse is the concept of exchange - the fact that someone coerces or manipulates a child into engaging in sexual activity in return for something they need or desire and/or for the gain of those perpetrating or facilitating the abuse. The something received by the child or young person can include both tangible items and/or more intangible 'rewards' OR 'benefits' such as perceived affection, protection or a sense of value or belonging. Any child under the age of eighteen, male or female, can be a victim of CSE, including those who can legally consent to have sex. The abuse most frequently impacts upon those of a postprimary age and can be perpetrated by adults or peers, on an individual or group basis. CSE is a form of child abuse and, as such, any member of staff suspecting that CSE is occurring will follow the school's child protection policy and procedures, including reporting to the appropriate agencies.

Domestic and Sexual violence and abuse can have a profoundly negative effect on a child's emotional, psychological and social well-being. A child does not have to witness domestic violence to be adversely affected by it. Living in a violent or abusive domestic

environment is harmful to children. Domestic violence and abuse is defined as 'threatening, controlling, coercive behaviour, violence or abuse (psychological, virtual, physical, verbal, sexual, financial or emotional) inflicted on anyone (irrespective of age, ethnicity, religion, gender, identity, sexual orientation or any form of disability) by a current or former intimate partner or family member.' Sexual Violence and Abuse is defined as 'any behaviour (physical, psychological, verbal, virtual /online perceived to be of a sexual nature which is controlling, coercive, exploitative, harmful or unwanted that is inflicted on anyone (irrespective of age, ethnicity, religion, gender, gender identity, sexual orientation or any form of disability).' (Stopping Domestic and Sexual Violence and Abuse in Northern Ireland A Seven Year Strategy: March 2016). If it comes to the attention of school staff that Domestic Abuse, is or may be, affecting a child this will be passed on to the Designated/Deputy Designated Teacher who has an obligation to share the information with the Social Services Gateway Team.

Female Genital Mutilation (FGM) is a form of child abuse and violence against women and girls. FGM comprises all procedures that involve partial or total removal of the external female genitalia, or other injury to the female genital organs for nonmedical reasons. The procedure is also referred to as 'cutting', 'female circumcision' and 'initiation'. The practice is medically unnecessary, extremely painful and has serious health consequences, both at the time when the mutilation is carried out and in later life. FGM is a form of child abuse and, as such, teachers have a statutory duty to report cases, including suspicion, to the appropriate agencies, through agreed established procedures set out in our school policy.

Forced Marriage A forced marriage is a marriage conducted without the valid consent of one or both parties and where duress is a factor. Duress can include physical, psychological, financial, sexual and emotional pressure. Forced marriage is a criminal offence in Northern Ireland and if in Ballymoney Nursery School we have knowledge or suspicion of a forced marriage in relation to a child or young person we will contact the PSNI immediately.

Children who display harmful sexualised behaviour

Learning about sex and sexual behaviour is a normal part of a child's development. It will help them as they grow up, and as they start to make decisions about relationships. As a school we support children and young people, through the Personal Development element of the curriculum, to develop their understanding of relationships and sexuality and the responsibilities of healthy relationships. Teachers are often therefore in a good position to consider if behaviour is within the normal continuum or otherwise.

It is important to distinguish between different sexual behaviours - these can be defined as 'healthy', 'problematic' or 'sexually harmful'. Healthy sexual behaviour will normally have no need for intervention, however consideration may be required as to

appropriateness within a school setting. Problematic sexual behaviour requires some level of intervention, depending on the activity and level of concern. For example, a one-off incident may simply require liaising with parents on setting clear direction that the behaviour is unacceptable, explaining boundaries and providing information and education. Alternatively, if the behaviour is considered to be more serious, perhaps because there are a number of aspects of concern, advice from the EA CPSS may be required. We will also take guidance from DE Circular 2016/05 to address concerns about harmful sexualised behaviour displayed by children and young people.

What is Harmful Sexualised Behaviour?

Harmful sexualised behaviour is any behaviour of a sexual nature that takes place when:

- There is no informed consent by the victim; and/or
- the perpetrator uses threat (verbal, physical or emotional) to coerce, threaten or intimidate the victim
- Harmful sexualised behaviour can include: Using age inappropriate sexually explicit words and phrases. • Inappropriate touching. • Using sexual violence or threats.
- Sexual behaviour between children is also considered harmful if one of the children is much older - particularly if there is more than two years' difference in age or if one of the children is pre-pubescent and the other is not.
- However, a younger child can abuse an older child, particularly if they have power over them - for example, if the older child is disabled.

Sexually harmful behaviour is primarily a child protection concern. There may remain issues to be addressed through the schools positive behaviour policy but it is important to always apply principles that remain child centred. Harmful sexualised behaviour will always require intervention and in our school we will refer to our child protection policy and, seek the support that is available from the CPSS.

E safety/Internet abuse Online safety means acting and staying safe when using digital technologies. It is wider than simply internet technology and includes electronic communication via text messages, social environments and apps, and using games consoles through any digital device. In all cases, in schools and elsewhere, it is a paramount concern.

In January 2014, the SBNI published its report 'An exploration of e-safety messages to young people, parents and practitioners in Northern Ireland' which identified the associated risks around online safety under four categories:

- Content risks: the child or young person is exposed to harmful material.
- Contact risks: the child or young person participates in adult initiated online activity.

- Conduct risks: the child or young person is a perpetrator or victim in peer-to-peer exchange.
- Commercial risks: the child or young person is exposed to inappropriate commercial advertising, marketing schemes or hidden costs.

We in Ballymoney Nursery School have a responsibility to ensure that there is a reduced risk of pupils accessing harmful and inappropriate digital content and will be energetic in teaching pupils how to act responsibly and keep themselves safe. As a result, pupils should have a clear understanding of online safety issues and, individually, be able to demonstrate what a positive digital footprint might look like. The school's actions and governance of online safety are reflected clearly in our safeguarding arrangements. Safeguarding and promoting pupils' welfare around digital technology is the responsibility of everyone who comes into contact with the pupils in the school or on school organised activities

Sexting is the sending or posting of sexually suggestive images, including nude or semi-nude photographs, via mobile or over the internet.

There are two aspects to Sexting:

Sexting between individuals in a relationship schools should look at this individually. Whilst their procedures should be the same as below they may want to include something specific here re what their preventative curriculum approach will be.

Pupils need to be aware that it is illegal, under the Sexual Offences (NI) Order 2008, to take, possess or share 'indecent images' of anyone under 18 even if they are the person in the picture (or even if they are aged 16+ and in a consensual relationship) and in these cases we will contact local police on 101 for advice and guidance. We may also seek advice from the EA Child Protection Support Service.

Please be aware that, while offences may technically have been committed by the child/children involved, the matter will be dealt with sensitively and considering all of the circumstances and it is not necessarily the case that they will end up with a criminal record. It is important that particular care is taken in dealing with any such cases. Adopting scare tactics may discourage a young person from seeking help if they feel entrapped by the misuse of a sexual image.

Sharing an inappropriate image with an intent to cause distress

If a pupil has been affected by inappropriate images or links on the internet it is important that it is not forwarded to anyone else. Schools are not required to investigate incidents. It is an offence under the Criminal Justice and Courts Act 2015 (www.legislation.gov.uk/ukpga/2015/2/section/33/enacted) to share an inappropriate image of another person without the individuals consent.

If a young person has shared an inappropriate image of themselves that is now being shared further whether or not it is intended to cause distress, the child protection procedures of the school will be followed.

• Children with a disability

Children and young people with disabilities (i.e. any child or young person who has a physical, sensory or learning impairment or a significant health condition) may be more vulnerable to abuse and those working with children with disabilities should be aware of any vulnerability factors associated with risk of harm, and any emerging child protection issues. Staff must be aware that communication difficulties can be hidden or overlooked making disclosure particularly difficult. Staff and volunteers working with children with disabilities will receive training to enable them to identify and refer concerns early in order to allow preventative action to be taken.

• Children with limited fluency in English

Children whose first language is not English/Newcomer pupils should be given the opportunity to express themselves to a member of staff or other professional with appropriate language/communication skills, especially where there are concerns that abuse may have occurred.

DTs and other relevant school staff should seek advice and support from the EA's Intercultural Education Service if necessary. All schools should create an atmosphere in which pupils with special educational needs which involve communication difficulties, or pupils for whom English is not their first language, feel confident to discuss these issues or other matters that may be worrying them.

• Pre-school provision

Many of the issues in the preceding paragraphs will be relevant to our young children who may have limited communication skills. In addition to the above, staff will follow our Intimate Care policy and procedures in consultation with the child's parent[s]/carer[s]

• Looked After Children

In consultation with other agencies and professionals, a Health and Social Care Trust may determine that a child or young person's welfare cannot be safeguarded if they remain at home. In these circumstances, a child may be accommodated through a voluntary arrangement with the persons with parental responsibility for the child or the HSCT may make an application to the Court for a Care Order to place the child or young person in an alternative placement provided by the Trust. The HSCT will then make arrangements for the child to be looked after, either permanently or temporarily.

It is important that the views of children, young people and their parents and/or others with parental responsibility for the looked child are taken into account when decisions are made. A member of school staff will attend LAC meetings and will provide a written report. Where necessary, school support will be put in place for the child/young person. Information will be shared with relevant staff on a need to know basis.

- **Children / young people who go missing**

Children and young people who go missing come from all backgrounds and communities and are known to be at greater risk of harm. This includes risks of being sexually abused or exploited although children and young people may also become homeless or a victim or perpetrator of crime. Those who go missing from their family home may have no involvement with services as not all children and young people who run away or go missing from their family home have underlying issues within the family, or are reported to the police as missing. The patterns of going missing may include overnight absences or those who have infrequent unauthorised absences of short time duration. When a child or young person returns, having been missing for a period, we should be alert to the possibility that they may have been harmed and to any behaviours or relationships or other indicators that children and young people may have been abused. School staff will work in partnership with those who look after the child or young person who goes missing and, if appropriate, will complete a risk assessment. Current school policies will apply e.g. attendance, safeguarding, relationships and sexuality education.

- **Young people in supported accommodation**

Staff will work in partnership with those agencies involved with young people leaving care and those living in supported accommodation and will provide pastoral support as necessary.

- **Young people who are homeless**

If we become aware that a young person in our school is homeless we will share this information with Social Services whose role is to carry out a comprehensive needs and risk assessment. We will contribute to the assessment and attend multidisciplinary meetings.

- **Separated, unaccompanied and trafficked children and young people**

Separated children and young people are those who have been separated from their parents, or from their previous legal or customary primary caregiver. Unaccompanied children and young people are those seeking asylum without the presence of a legal

guardian. Consideration must be given to the fact that separated or unaccompanied children may be a victim of human trafficking.

Child Trafficking is the recruitment, transportation, transfer, harbouring or receipt of a child or young person, whether by force or not, by a third person or group, for the purpose of different types of exploitation. If we become aware of a child or young person who may be separated, unaccompanied or a victim of human trafficking we in Ballymoney Nursery School will immediately follow our safeguarding and child protection procedures •

Children of parents with additional support needs

Children and young people can be affected by the disability of those caring for them. Parents, carers or siblings with disabilities may have additional support needs which impact on the safety and wellbeing of children and young people in the family, possibly affecting their education or physical and emotional development. It is important that any action school staff take to safeguard children and young people at risk of harm in these circumstances encompasses joint working between specialist disability and children's social workers and other professionals and agencies involved in providing services to adult family members. This will assist us in ensuring the welfare of the children and young people in the family is promoted and they are safeguarded as effectively as possible. Where it is known or suspected that parents or carers have impaired ability to care for a child, the safeguarding team will give consideration to the need for a child protection response in addition to the provision of family support and intervention.

Gender identity issues and sexual orientation

Young people from the LGBTQ community may face particular difficulties which could make them more vulnerable to harm. These difficulties could range from intolerance and homophobic bullying from others to difficulties for the young person themselves in exploring and understanding their sexuality. At such times young people may be more vulnerable to predatory advances from adults seeking to exploit or abuse them. This could impede a young person's ability or willingness to raise concerns if they feel they are at risk or leave young people exposed to contact with people who would exploit them. As a staff working with young people from the LGBT community we will support them to appropriately access information and support on healthy relationships and to report any concerns or risks of abuse or exploitation.

EA has published guidance on how schools can support transgender young people.

<http://www.eani.org.uk/school-management/policies-andguidance/supportingtransgender-young-people>

- **Boarding schools and residential settings**

Children in the above settings are particularly vulnerable to abuse. We will ensure that staff are appropriately vetted and trained in accordance with DE guidance.

- **Work experience, school trips and educational visits**

Our duty to safeguard and promote the welfare of children and young people also includes periods when they are in our care outside of the school setting. We will follow DE guidance on educational visits, school trips and work experience to ensure our current safeguarding policies are adhered to and that appropriate staffing levels are in place. Guidance on organising work experience is available from the EA and from the Health and Safety Executive.

<http://www.eani.org.uk/schoolmanagement/educational-visits>

Children/young people's behaviours

- **Peer Abuse**

Children and young people may be at risk of physical, sexual and emotional bullying and abuse by their peers. Such abuse should always be taken as seriously as abuse perpetrated by an adult. Where a child or young person has been harmed by another, all school staff should be aware of their responsibilities in relation to both children and young people who perpetrate the abuse as well as those who are victims of it and, where necessary, should contribute to an inter-disciplinary and multi-agency response.

- **Self-Harm**

Self-harm encompasses a wide range of behaviours and things that people do to themselves in a deliberate and usually hidden way, which are damaging. It may indicate a temporary period of emotional pain or distress, or deeper mental health issues which may result in the development of a progressive pattern of worsening self-harm that may ultimately result in death by misadventure or suicide. Self-harm may involve abuse of substances such as alcohol or drugs, including both illegal and/or prescribed drugs. Self-harming behaviours may indicate that a child or young person has suffered abuse; however this is not always the case. School staff should share concerns about a child or young person who is self-harming with a member of the safeguarding team who will seek advice from appropriately qualified and experienced professionals including those in the nonstatutory sector to make informed assessments of risk in relation to self-harming behaviours.

- **Suicidal Ideation**

Staff must act without delay if they have concerns about a child or young person who presents as being suicidal as it is important that children and young people who communicate thoughts of suicide or engage in para-suicidal behaviours are seen urgently by an appropriately qualified and experienced professional, including those in the non-statutory sector, to ensure they are taken seriously, treated with empathy, kindness and understanding and assessments of risk and needs can be completed as a matter of priority.

Safeguarding Statement

Ballymoney Nursery School is part of Operation Encompass.

Operation Encompass is a national police and education early intervention safeguarding partnership which supports children and young people who experience Domestic Violence and Abuse and which is in place in every police force in England and Wales.

Children were recognised as victims of domestic abuse in their own right in the 2021 Domestic Abuse Act. Operation Encompass means that the police will share information with our school about **all** police attended Domestic Abuse incidents which involve any of our children PRIOR to the start of the next school day.

Once a Key Adult (Designated Teacher) and their deputy (Deputy Designated Teacher) have attended either an Operation Encompass briefing or completed the online Operation Encompass Key Adult training they will cascade the principles of Operation Encompass to all other school staff and Governors.

The Designated Teacher for Child Protection, Mrs S Müller, undertook training on 27.02.23.

The Deputy Teacher for Child Protection, Mrs C O'Kane, undertook training on 27.02.23.

All Nursery Staff have undertaken training on 27.02.23.

Our Safeguarding Governor has undertaken training.

Our parents are fully aware that we are an Operation Encompass School and we ensure that when a new child joins our school the parents/carers are informed about Operation Encompass.

The Operation Encompass information is stored in line with all other confidential safeguarding and child protection information.

As a staff we discuss how we can support our children who are experiencing Domestic Violence and Abuse on a day-to-day basis and particularly following the Operation Encompass notification. We have used the Operation Encompass Handbooks to inform our thinking.

We are aware that we must do nothing that puts the child/ren or the non-abusing adult at risk.

Operation Encompass will be reported on in the termly agenda to the Board of Governors. All information is anonymised for these reports.

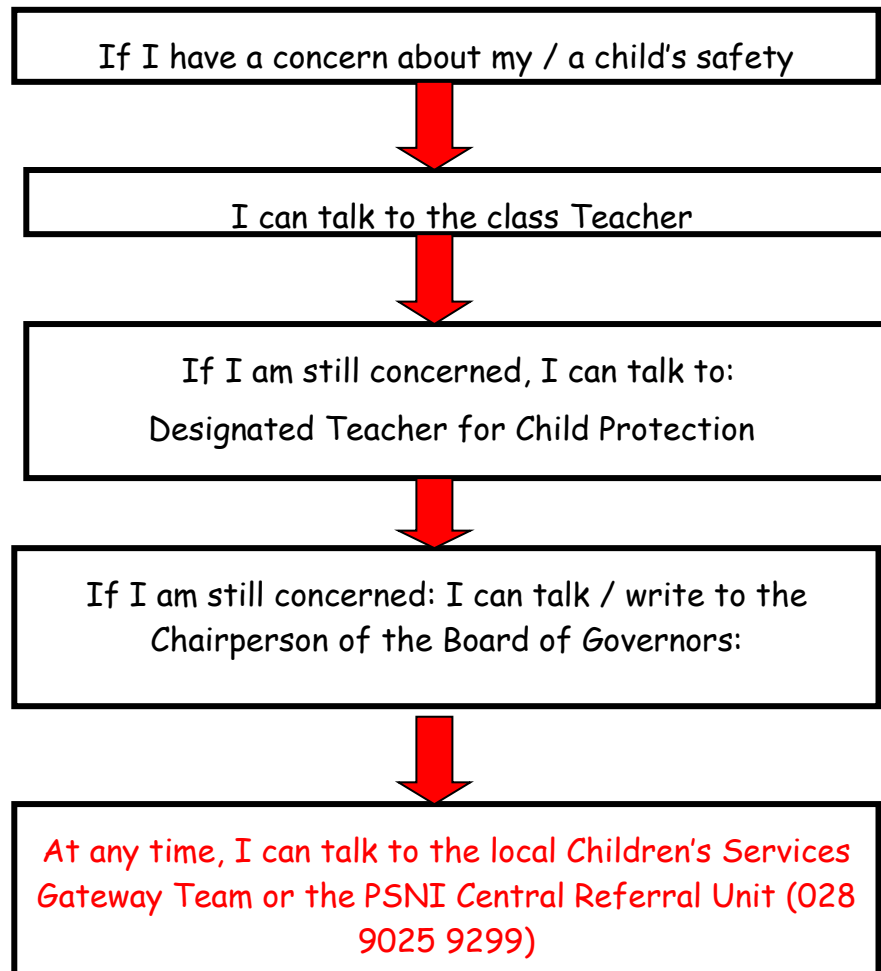

We have used the Operation Encompass Key Adult Responsibilities checklist to ensure that all appropriate actions have been taken by the school.

When the School Principal, Designated Teacher or Deputy Designated Teacher for Child Protection leave the school and other staff are appointed, they will ensure that all Operation Encompass log in details are amended/shared and that the new member of staff will undertake the Operation Encompass online training.

Procedures For Parents

If a parent has a concern about safeguarding or child protection regarding their own or another child, the following procedures apply in the order stated. Parents have a copy of this procedure in their Parents' Handbook.

If you have escalated your concern, as set out in the above flowchart, and are of the view that it has not been addressed satisfactorily, you may revert to the school's complaints policy. This policy should culminate in the option for you to contact the NI Public Services Ombudsman (NIPSO) who has the legislative power to investigate your complaint. For further information regarding this process please refer to Annex B. If a parent has a concern about a child's safety or suspect child abuse within the local community, it should be brought directly to the attention of the Children's Services Gateway Team.

Procedure where the School has concerns, or has been given information, about possible abuse by someone other than a member of staff.

Member of staff completes the Note of Concern on what has been observed or shared and must **ACT PROMPTLY**. Source of concern is notified that the school will follow up appropriately on the issues raised.

Staff member discusses concerns with the Designated Teacher or Deputy Designated Teacher in his/her absence and provides note of concern.

Designated Teacher should consult with the Principal or other relevant staff before deciding upon action to be taken, always taking care to avoid undue delay. If required, advice may be sought from a CPSS officer.

Child Protection referral is required

Designated Teacher seeks consent of the parent/carer and/or the child (if they are competent to give this) unless this would place the child at risk of significant harm, then telephone the Children's Services Gateway Team and/or the PSNI if a child is at immediate risk. He/she submits a completed UNOCINI referral form within 24 hours.

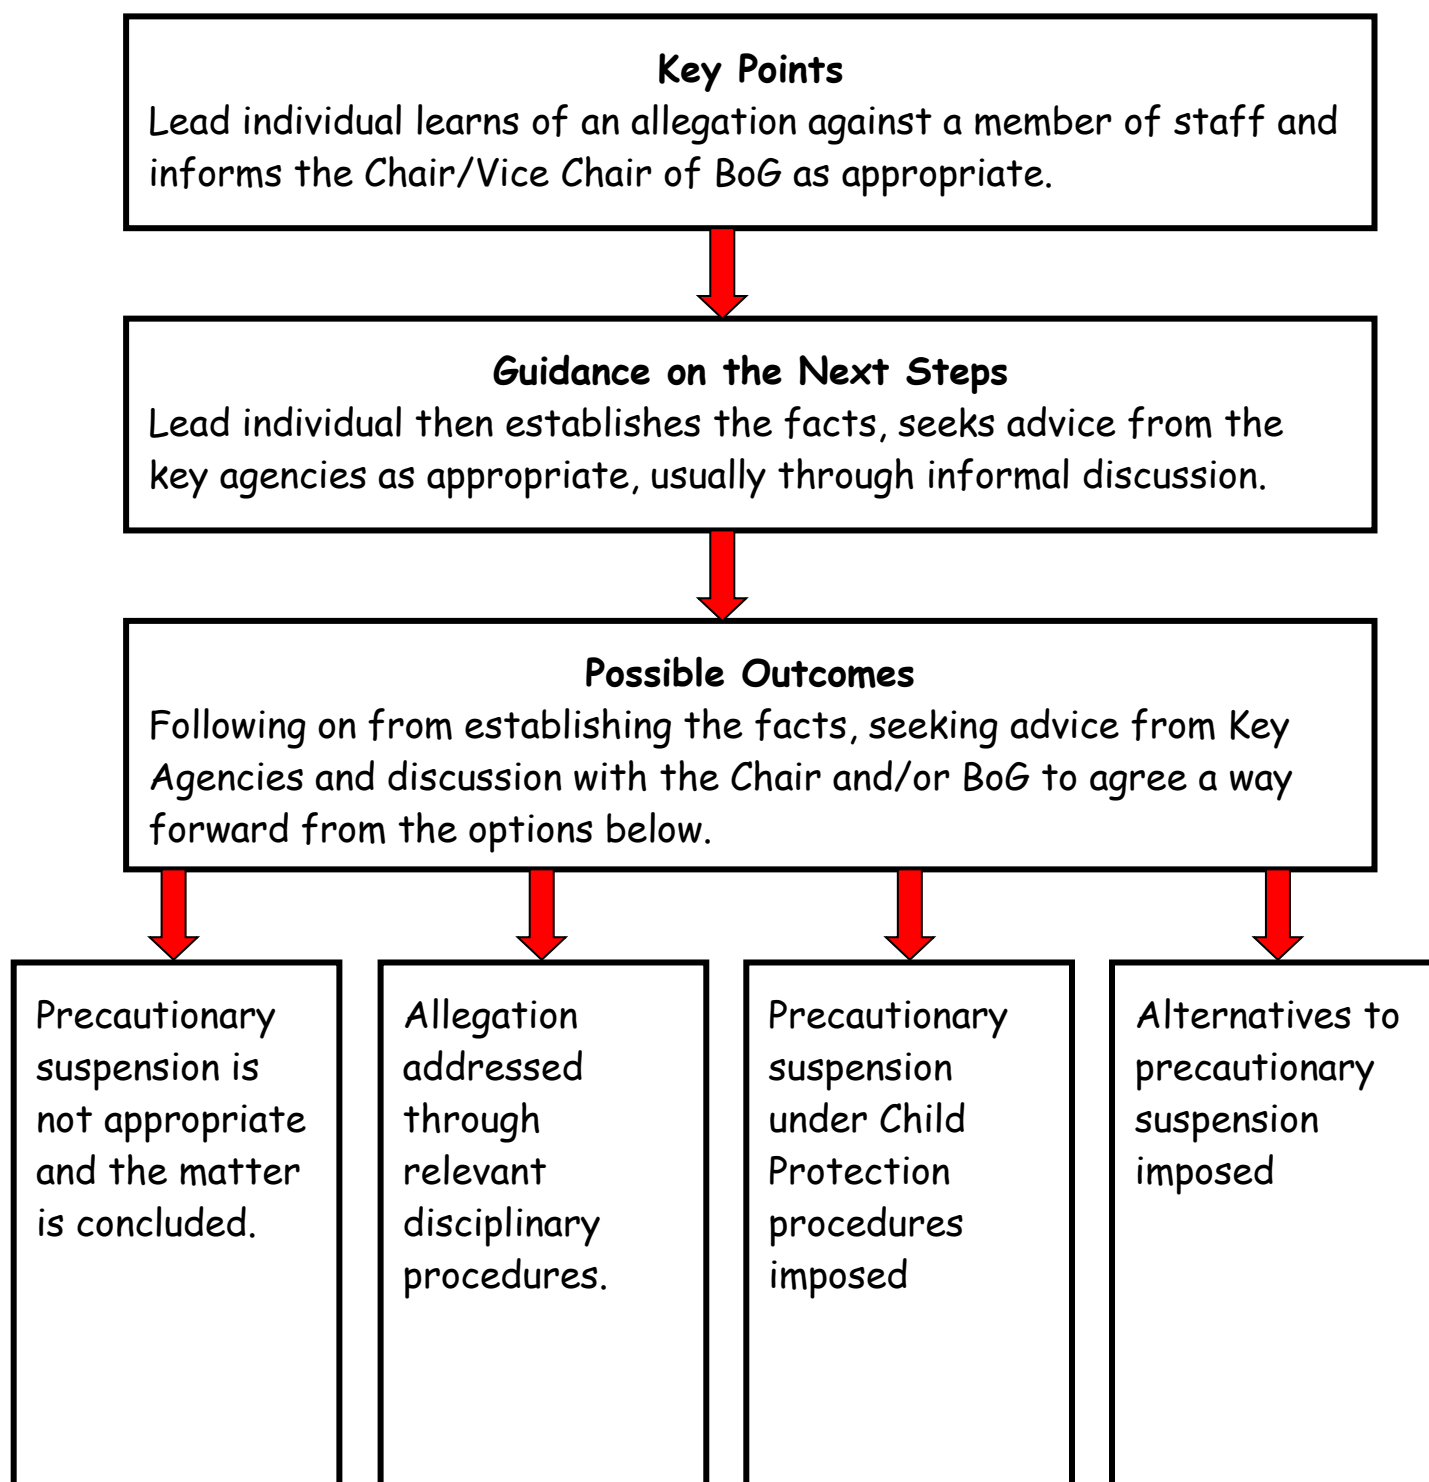

Designated Teacher clarifies/discusses concern with child/parent/carers and decides if a child protection referral is or is not required.

Child Protection referral is not required

School may consider other options including monitoring the situation within an agreed timescale; signposting or referring the child/parent/carers to appropriate support services such as the Children's Services Gateway Team or local Family Support Hub with parental consent, and child/young person's consent (where appropriate).

Where appropriate the source of the concern will be informed as to the action taken. The Designated Teacher will maintain a written record of all decisions and actions taken and ensure that this record is appropriately and securely stored.

Dealing with Allegations of Abuse Against a Member of Staff

CONFIDENTIAL

NOTE OF CONCERN

CHILD PROTECTION RECORD - REPORTS TO DESIGNATED TEACHER

Name of Pupil:

Tel: 028 7028 0904

Appendix 8 Northern Ireland Public Service Ombudsman

If having escalated a safeguarding and/or child protection concern as set out in Section 4 of this Guidance and you are not satisfied with how your concerns have been addressed, you may revert to the school's complaints policy. This policy should culminate in the option for you to contact the NI Public Services Ombudsman (NIPSO) who has the legislative power to investigate your complaint.

Each school is responsible for setting its own complaints policy and procedures which should be available on the school's website, or by contacting the school directly. Please note that this complaints process, although similar, is separate from the escalation of safeguarding and child protection concerns, and is in relation to the way in which your concerns were dealt with.

Details of how to make a complaint to NIPSO can be found on their website at: www.nipso.org.uk or, by telephone on 0800 34 34 24. However, please bear in mind that usually, before you complain to the Ombudsman, you will be expected to have exhausted the school's internal complaints procedure.
